Classroom Camera Enrollment Form

Each classroom has a camera installed that will allow parents to view their child during the school day. Enrollment for this feature is optional and there is no commitment. The low cost of \$5 per week (per family) will allow parents to enjoy the luxury of staying close to their child while at school.

Payments for the classroom camera service should be added to your weekly tuition rate. If you pay for more than one week at a time, please add the fee for each week in which you are paying. Your account will be charged each week until notification is given to RSA to discontinue service. One (1) week notice is required to cancel the camera service.

Once we have received your enrollment form:

- We will provide you with a login name and password
- Go to our website and click on "Classroom Cameras" on the Parent Page to log in to your classroom
